Mr. Richard Stevens, Superintendent
Atlanta Municipal Utilities
15 West Third Street
P.O. Box 517
Atlanta, Iowa 50022

Dear Mr. Stevens:

Enclosed is a work plan for a soil gas investigation of the Atlanta Public Water Supply. This investigation is being planned jointly by the U.S. Environmental Protection Agency (EPA) and the Iowa Department of Natural Resources (IDNR).

We are requesting your assistance in obtaining access to conduct the sampling and in locating utility lines.

Please return any comments you may have directly to Phillip Dula, who will be in charge of the field work for EPA. He may be reached at (913) 432-9961.

A copy of the work plan is also being sent to IDNR (Jean Carlton) for comment.

Sincerely yours,

Peter J. Culver
